

Privacy Browser - Bug #122

Search JavaScript settings should be set according to the JavaScript settings applied to the search domain

04/17/2017 09:10 AM - Soren Stoutner

Target version:		Spent time:	0.00 hour
Description			
Currently they are set according to the default JavaScript settings, which doesn't work well if custom domain settings are applied to the search domain.			

History

#1 - 04/26/2017 04:56 PM - Soren Stoutner

- Status changed from New to Closed

Fixed in commit <https://git.stoutner.com/?p=PrivacyBrowser.git;a=commitdiff;h=76a37e5ce26f7d4ebe57d38cecc842e4c6c15819>.

The JavaScript-disabled and JavaScript-enabled search options have been combined. To function correctly, users should select the option that matches the domain setting for the search engine (if specified) or the default JavaScript state.
