

## Privacy Browser - Feature #174

### Create a delete domains callback for enabling the delete menu icon.

07/18/2017 12:12 AM - Soren Stoutner

<b>Status:</b>	New	<b>Start date:</b>	07/18/2017
<b>Priority:</b>	3.x	<b>Due date:</b>	
<b>Assignee:</b>	Soren Stoutner	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
Move the `DomainsActivity` runnable delay to the processing of the delete command. Currently it is delaying the enabling of the delete icon.			

#### History

**#1 - 07/10/2018 01:33 PM - Soren Stoutner**

- Priority changed from 2 to Next Release

**#2 - 07/30/2018 03:47 PM - Soren Stoutner**

- Description updated

**#3 - 07/30/2018 03:49 PM - Soren Stoutner**

- Subject changed from Move the `DomainsActivity` runnable delay to the processing of the delete command to Create a delete domains callback for enabling the delete menu icon.

- Priority changed from Next Release to 3.x

This original plan isn't a good idea because if too many delete commands are queued it could cause problems. We should create a callback from the domain delete command instead that will indicate to the system that the menu icon can be enabled.
