<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
<p>My only hesitance in doing this has been trying to find real estate to dedicate to the option. I don't want to use any of the space in the App Bar because I don't think this is a feature that will be used often.</p> <p>However, I think it would be possible to use the options menu entry for Refresh and have it automatically change to Stop Loading when a website is loading.</p>			

#### History

**#1 - 07/31/2018 04:46 PM - Soren Stoutner**

- Priority changed from 2 to Next Release

**#2 - 08/10/2018 10:16 PM - Soren Stoutner**

- Status changed from New to Closed

Implemented in commit <https://git.stoutner.com/?p=PrivacyBrowser.git;a=commitdiff;h=1054eda0dd47e1dc03a243aee74845a2a08e2069>.
