

Privacy Browser - Bug #314

Ignore blacklist entries with "websocket"

07/27/2018 04:39 PM - Soren Stoutner

Status:	Closed	Start date:	07/27/2018
Priority:	Next Release	Due date:	
Assignee:	Soren Stoutner	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Privacy Browser doesn't differentiate between websocket requests and other requests. And these entries cause a lot of false positives.			
For example, imdb.com loads images from m.media-amazon.com, which is blocked by <code>.me^\$third-party,websocket`</code> .
