

## Privacy Browser - Bug #314

### Ignore blacklist entries with "websocket"

07/27/2018 04:39 PM - Soren Stoutner

<b>Status:</b>	Closed	<b>Start date:</b>	07/27/2018
<b>Priority:</b>	Next Release	<b>Due date:</b>

<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
Privacy Browser doesn't differentiate between websocket requests and other requests. And these entries cause a lot of false positives.			
For example, imdb.com loads images from m.media-amazon.com, which is blocked by <code>`.me^\$third-party,websocket`</code> .
