

## Privacy Browser - Feature #326

### Add quick toggle for "proxy through Orbot"

08/28/2018 01:43 PM - JB Hétiér

<b>Description</b>			
Hello,			
Some sites do not work well with Tor. I would appreciate a quick toggle rather than having to scroll through the settings.			

#### History

That's a good idea. I will add that in one of the next few releases.

##### #2 - 09/30/2018 03:43 AM - Jerry Joseph

Yes, this is a must have feature because cloudflare blocks most of the sites. If are out of space for a toggle then you should change the toggle type like brave browser. 1 click toggle will bring more toggles

##### #3 - 09/30/2018 03:47 AM - Jerry Joseph

Another thing is if it possible you can make an option in domain settings to turn off tor for a particular site

##### #4 - 10/01/2018 10:31 AM - Soren Stoutner

The proxy setting is an app wide configuration. With the upcoming release of tabbed browsing, it won't be possible to have some tabs run through Tor and others not. Therefore, this isn't something that can be included in domain settings at this time. However, it may be possible to do so once Privacy WebView is released in the 4.x series. I have created a feature request at <https://redmine.stoutner.com/issues/335>.

##### #5 - 10/30/2018 11:47 AM - Soren Stoutner

- Priority changed from 2.x to Next Release

##### #6 - 11/12/2018 02:21 PM - Soren Stoutner

- Status changed from New to Closed

Implemented in commit <https://git.stoutner.com/?p=PrivacyBrowser.git;a=commitdiff;h=930adb36c4ef786be96f8d11a238c87ac987c82e>.
