

Privacy Browser - Feature #367

Switch About and Guide icons from PNG to SVG

01/04/2019 11:48 PM - Soren Stoutner

Status:	Closed	Start date:	01/04/2019
Priority:	Next Release	Due date:	
Assignee:	Soren Stoutner	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
This should save a little bit of space. It should also be possible to use one icon for both light and dark themes and use a tint control.

- Priority changed from Next Release to 3.x

It is possible to display SVG images in WebView using ``, which works all the way back to API 19, but it isn't possible to modify the fill of the SVG file using this method.

Other methods, like `<svg><use href="../../shared_images/add.svg"></use></svg>`, just paint an empty box in WebView.

I think I will wait and see what happens with WebView's new dark mode before proceeding.
