Refactor the alert dialogs

02/25/2019 12:42 PM - Soren Stoutner

Status:	New	Start date:	02/25/2019
Priority:	3.x	Due date:	
Assignee:	Soren Stoutner	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>Move as much of the code for processing the alert dialogs into them as possible and remove any listeners and public static variables from the calling activities that aren't needed.</p> <p>This has already been done for the create home screen shortcut dialog.</p> <p>As part of this process, check to make sure that dialogs that disable buttons don't call the button logic from and EditText enter key if they are disabled.</p>
