

Privacy Browser - Feature #463

Add an option to save a webpage

Description			
<p>This just saves the raw webpage. For example, some people want to save PGP signatures, like https://cdimage.debian.org/debian-cd/current-live/amd64/iso-hybrid/SHA512SUMS.sign.</p> <p>This is similar to https://redmine.stoutner.com/issues/188 but it just saves the raw page instead of creating an archive.</p>
