Description			
<p>It would be nice to have a method to display a single image when displaying of images is blocked generally.</p> <p>This would be similar to https://redmine.stoutner.com/issues/405</p> <p>Because Android Studio does not expose these types of controls, this will have to wait for Privacy WebView.</p> <p>https://redmine.stoutner.com/boards/1/topics/56</p>
