

Privacy Browser - Bug #67

File downloading broken in API <= 22

10/22/2016 09:34 PM - Soren Stoutner

Status:	Closed	Start date:	10/22/2016
Priority:	Next Release	Due date:	
Assignee:	Soren Stoutner	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Attempting to download a file causes a crase in API <= 22.			

History

#1 - 10/22/2016 09:36 PM - Soren Stoutner

- Status changed from New to Closed

This was caused by calling `setDestinationInExternalFilesDir()`, which needs extra permissions in API <= 22. Fixed in commit <https://git.stoutner.com/?p=PrivacyBrowser.git;a=commitdiff;h=1bd5ba3b9f91e69517fa8a39665256f0badc408b>

#2 - 10/26/2016 01:04 PM - Soren Stoutner

With this fix, downloads for API >= 23 are stored in the public /sdcard/Android/data/com.stoutner.privacybrowser.standard/files, while downloads for API <= 22 are stored in the private Download Manager internal storage.

#3 - 02/23/2018 12:37 PM - Soren Stoutner

- Priority changed from 3 to Next Release
