

Privacy Cell - Bug #763

See if it is possible to suppress the sound for the unknown network notification.

09/29/2021 02:41 PM - Soren Stoutner

Status:	Closed	Start date:	09/29/2021
Priority:	Next Release	Due date:	
Assignee:	Soren Stoutner	% Done:	0%

Target version:		Spent time:	0.00 hour
Description			
Currently it plays the insecure network sound when the service is started, which works if the network ends up being insecure. But, if the network is secure, the second sound doesn't play because, apparently, new sounds aren't queued for a notification if a sound for that notification is currently playing.
