

Privacy Browser - Bug #80

Crash on Loading Some Resource Requests with Ad Blocker Enabled

01/03/2017 01:53 PM - Soren Stoutner

Status:	Closed	Start date:	01/03/2017
Priority:	Next Release	Due date:	
Assignee:	Soren Stoutner	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
On loading some resource requests a `java.lang.NullPointerException` is thrown on `MainWebView.java:533` which is: `if (adServersSet.contains(requestHost)) {` Performing a search on github.com reliably triggers this bug.			

History

#1 - 01/04/2017 10:37 AM - Soren Stoutner

An example resource request URL that causes this problem:

blob:https%3A//github.com/25a450fc-45f3-455a-8cb8-0a9599216479

Which, of course, returns a null host value.

This problem manifests on this website with API 19 (4.4.2, KitKat) but not on API 25 (7.1.1, Nougat). This is likely due to the different version of Chrome, 30.0.0.0 vs. 55.0.2883.91.

#2 - 01/04/2017 11:02 AM - Soren Stoutner

This was introduced with the ad blocker in version 1.14. It only manifests if the ad blocker is enabled.

#3 - 01/04/2017 11:04 AM - Soren Stoutner

- Status changed from New to Closed

Fixed in <https://git.stoutner.com/?p=PrivacyBrowser.git;a=commitdiff;h=e59f99e8ba2f66916186c13dabea9686e1b6f70f>.

#4 - 01/04/2017 11:09 AM - Soren Stoutner

- Subject changed from Crash on Loading Some Resource Requests to Crash on Loading Some Resource Requests with Ad Blocker Enabled
